

Dear San Miguel Residents,

The following information is about transmitters for the Mission San Miguel gate. With the push of a button before turning into San Miguel, you will be able to cruise through an open gate.

Due to the high security of our Linear Gate Entry System, these transmitters are relatively costly and each resident will need to purchase their own transmitter(s). I have consistently found the best prices at:

### North Shore Commercial Door

Phone: 800-783-6112

Website: [www.northshorecommercialdoor.com](http://www.northshorecommercialdoor.com)

After you receive your transmitter(s), each transmitter's ID (serial number) must be individually programmed by me into our Linear System. Simply send me an email with your transmitter's IDs.

Thanks,  
Scot Tweedie

There are two recommended styles of transmitters, the key ring and the visor clip. You may purchase any combination of transmitters to meet your personal needs.

The Monarch 318LIPW1K  
Linear MegaCode compatible  
Keychain Transmitter, approx. \$15

The Stingray 318LIPW1V  
Linear MegaCode compatible  
Visor Clip Transmitter, approx. \$19
