## Front Gate Telephone Entry System

The front gate access system is up and running. Visitors can look up your name in the directory and enter your 3-digit code which calls your phone. Once you answer your phone and your caller is identified, you may press **9** to open the gate, or you may disconnect the call without granting access by pressing **\*** or by hanging up. Note: As soon as you press **9**, your phone will disconnect/hang up. Your visitor will not hear you ask “Did it open?”.

The current Entry Code is **XXXX**. Please do not supply our security code to non-owners. Temporary gate codes for events are EASY to administer – just text me or send an email.

The “MSM Front Gate” phone number is **850-877-0208**. You need that number added to your phone’s directory/contacts so you can identify incoming calls from “MSM Front Gate”. You can’t “call” that number to open the gate or to call a person at the gate box.

Please direct your questions to Scot Tweedie:
